

I'm totally against the FCC telling the State of Wisconsin their law on the No Call List is too strong. The Fed needs to stay out of our business. I don't want these fools calling me at all hours of the day trying to scam me or sell me something. I used to get calls from the early morning to late at night. In some cases close to 10:00 PM. I'm tired of being interrupted during dinner and when I'm trying to relax. It's been great not to get these calls and I want to keep it this way. If the state is forced to go back to the old ways, then I want the personal numbers of these people who call me. See if they like it when they get calls at all hours of the day and night. To me this is harassment and we have a right not to be harassed by these assholes. The FCC needs to listen to the people and what their needs are and not the needs of these telemarketer groups.
